

April 28th & 29th | Crowne Plaza

WORKSHOP 2

PoCUS: Mastering EFAST & RUSH

Wednesday April 29th
2:30 PM - 4:30 PM

Learn from expert clinicians how to rapidly assess and diagnose the causes of undifferentiated shock and trauma at the bedside.

Through case based discussions and a practical group session involving hands on scanning you'll master the systematic techniques of EFAST and RUSH focusing on both the acquisition and interpretation of images in the shocked patient.

Build confidence in your scanning abilities and incorporate these core skills into your daily practice to expedite clinical care in the critically unwell.

Supplemented by educational modules that can be accessed at any time - join us and become proficient in rapid diagnostic point of care ultrasound!

Introduction

- Why EFAST
- Minimum required views
- What is RUSH and HIMAP
- Discussion of clinical application

Practical Hands-On Scanning Session

- Scan real patients with expert real time feedback
- Optimize image acquisition and interpretation
- Review examples of scans with real pathology

Application of RUSH

- Case based application
- Improve image acquisition under pressure
- Develop clinical synthesis leading to early diagnosis and decision making

Session Sponsor - Mindray

- A huge thank you to Mindray for providing their cutting edge point of care devices and clinical expertise for this workshop
